

◆ **NEXT EVENT**

The next SAFESPUR event will be in March 2013 and will look at the use of **Remove Operated Vehicles (ROVs) and Robotics in nuclear and defence decommissioning**. A flyer confirming dates will be sent out in early January.

◆ **FUTURE EVENT**

The subsequent event currently being developed will focus on long term monitoring, particularly of groundwater. If you have interesting case studies that you wish to include, then please contact us.

◆ **RECENT NEW RESOURCES**

SAFEGROUNDS case study on Harwell site delicensing, [read more...](#)

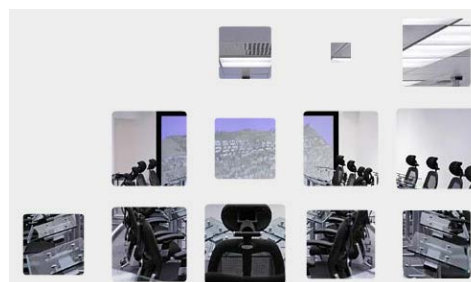

SAFEGROUNDS case study on Hinkley, [read more...](#)

◆ **A QUICK LOOK BACK AND A BIG THANK YOU**

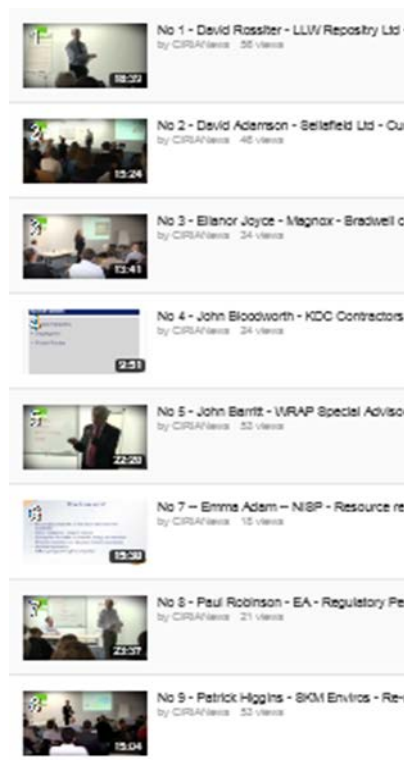

Thank you to all the speakers who took part in our 2012 programme and to the organisations that hosted events on behalf of SAFESPUR

The Harwell event included a visit inside the DIDO reactor

Innovation – held at Salford Think Pod Delegate feedback “ an interesting event and an inspiring venue”
